

# Thuraya X5 Touch Android

**Brand:** THURAYA  
**Product Code:** X5 Touch  
**Availability:** upon request

**Price: Fr. 1598.00**

**Ex Tax: Fr. 1478.26**

## Short Description

The Thuraya X5-Touch is the most rugged phone in the industry with IP67 standard.

## Description

The Thuraya X5-Touch is the most rugged phone in the industry with IP67 standard and compliance with MIL 810 G/F. That means the phone is full dust and water protected and tested to withstand shock, vibration and extreme temperature.

## Fully ruggedized

Communicate seamlessly in satellite and GSM mode: The Thuraya X5-Touch works over Thuraya's L-band satellite network as well as GSM 2G/3G/4G/LTE networks. It comes equipped with two nano SIM card slots for complete flexibility and choice. Choose from a combination of both a Thuraya SIM card and a GSM SIM card, or any combination of SIM cards that meets your requirements.

## Dual Mode - Dual SIM

Make and receive calls simultaneously on both networks with the unique SAT and GSM "Always On" function. For a true dual experience, you can receive

calls on your GSM number even when on an active satellite call and vice versa.

## **Advanced Navigation**

The phone comes equipped with GPS, BeiDou, and Glonass systems for the highest flexibility in all regions. Use the preinstalled navigation and tracking apps to send your current location details to pre-defined numbers via SMS or email, based on pre-set time intervals, distance travelled or when moving inside or outside your pre-set geofence.

## **Dedicated SOS button**

The Thuraya X5-Touch has a dedicated SOS button, which is easy to use in times of distress. Even when the phone is switched off, simply press and hold the SOS button for 3 seconds, which starts the handset and triggers the SOS call (and/or SMS) to any pre-programmed number.

## **Make the most out of your camera**

With the front and rear cameras take photos and videos anywhere. Enjoy state-of-the-art features like built-in flash, panorama mode, face detection and many more.

## **Expand your phone memory**

With a dedicated Micro-SD slot, expand your phone memory up to 32GB and make sure you don't run out of memory when you need it.

## **Connect anyway you want**

Enjoy using your X5-Touch in a multi-device world. The phone comes with Wi-Fi, Bluetooth and NFC connectivity making it easy to connect.

## **Walk-and-Talk**

The Thuraya X5-Touch facilitates reliable and efficient walk-and-talk

communications due to the combination of high performance satellites from Thuraya's network and an omni-directional antenna designed to ensure enhanced mobility.

## **Bring Your Own App (BYOA)**

The Android platform on the Thuraya X5-Touch allows every customer and every developer to personalize the phone to their needs and to take advantage of the vast range of customization that Android provides. Don't like the preinstalled keyboard or browser? Just download other ones from Google Play. Choose from a wide range of apps that are readily available from third party developers. The phone also integrates easily with wearables like smartwatches, healthcare wearables, etc.

## **Satellite Coverage Map**

### **Note:**

Please note that your satellite phone must always have a **direct, undisturbed line of sight to one of the Thuraya satellites** in order to guarantee a stable connection (unless you have a terrestrial GSM connection). **Buildings, trees and mountains represent massive obstacles** that can hardly be penetrated. The satellites are roughly above the Indian Ocean.

## Specifications

Communication specs	
Coverage	South and Central Europe, Northern and Central Africa, Asia and Australia
Data transmission	Sat 9600 bps, GmPRS 60/15 kbps
Frequency Bands terrestrial	GSM 2G, 3G, 4G, LTE
